Job Type: College Grad

## Job Description

Intel is in the midst of an exciting transformation, with a vision to create and extend computing technology to connect and enrich the lives of every person on Earth. Join us and help us create the next generation of technologies that will shape the future for decades to come. The candidate is going to work on the development of software tools that help others execute their business in a smarter way, using her/his software skills. Software Engineers conduct or participate in multidisciplinary research and collaborate with concept and hardware engineers in the design, development, and utilization of productivity enhancement tools.

This position is subject to the collective agreement for workers and employees in the electrical and electronics industry, employment group G. A higher payment is negotiable depending on your expertise and skills. Prior to entering an employment agreement, the employee will be asked to provide all documents and references to verify any service times of prior employment. Based on provided documents the appropriate number of service years will be credited as prior employment.

## Qualifications

We are looking for the following qualifications:

- Master of science in Computer Science, Software Engineering or comparable
- Experience in software development using at least one of the following:
  - o C/C++
  - o Java
  - o Python
  - o JavaScript
- A grounding in software development best practices

What attributes does our perfect candidate have?

- A passion for the craft of software development
- Is a team player
- Loves to learn
- Is adaptable
- Has good analytical, communication and presentation skills

English is our language, we are a multinational team located in Linz, Austria.

What we offer:

- Mentorship, in your first couple of months, you are going to work closely with passionate and experienced software engineers from our team on daily basis.
- We give you opportunities to transform technology and create a better future, by delivering products that touch the lives of every person on earth.
- As a global leader in innovation and new technology, we foster a collaborative, supportive, and boredom-free

environment-where the brightest minds in the world come together to achieve exceptional results.

- We provide benefits that promote a healthy, enjoyable life: Flexible work hours, meal vouchers, supplies of fruits and drinks, discounts on various products and services, and many more creative perks that make Intel a Great Place to Work! We're constantly working on making a more connected and intelligent future, and we need your help. Change tomorrow. Start today.

### **Inside this Business Group**

Communication & Devices Group: The wireless revolution at Intel!
